

Improved Below Ground Protection with NitroBlock

NitroBlock Enhanced DCD resists movement in the soil protecting Nitrogen longer

Below Ground Mobility Study

Mobility Testing Trial

- Sandy Loam Soil - pH 6.5
- Soil Column Test - 3 Inch (75mm)
- Water wash applied 1000mm
- DCD was measured in the water sample after each wash event

Results - DCD is 3X more mobile in the soil as compared to NitroBlock Enhanced DCD Formulation
